DD/S 72-2510

20 JUN 1972

MEMORANDUM FOR: Deputy Director of Security

STAT

[REDACTED]

Attached is a copy of the package I sent to [REDACTED] on the SSC DCID. Mr. Coffey is anxious to have identified, as accurately and realistically as you can, the resource implications of whatever final draft is agreed upon; and to get the approval of the Executive Director-Comptroller before the agreed draft DCID is submitted by IC to the Community for coordination. [REDACTED] of OPPB has been representing Mr. Colby's interests in the overall DCID exercise. You will note that I have sent to him a copy of the attached. He takes particular interest in those DCID's which have resource implications for CIA. I have found him quite knowledgeable and very helpful in dealing with [REDACTED]. You may want to make his acquaintance and then decide whether you want him to sit in on your discussions with Gerry at any point during the developments.

STAT

STAT

New Subject -- I mentioned to Mr. Coffey the business of transferring the Top Secret control function from CRS to OS. He suggests that the next step should be the preparation of a paper, addressed to the Executive Director-Comptroller for DDS signature and DDI concurrence, which would cite Mr. Colby's decision at the 11652 Deputies meeting to transfer the function; describe and size the problem as it exists plus 11652 additives; describe the working level preliminaries you have gone through with CRS; offer the specific proposal regarding slot(s) and body(s) you feel necessary to permit you to assume the responsibility; and include any other relevant information you consider significant in requesting Mr. Colby's approval.

[REDACTED]

Chief, Support Operations Staff, DDS

STAT Mr. [ ]

Gerry:

STAT Attached is a composite draft of the SSC DCID. When you have had a chance to review it, would you arrange to discuss it directly with [ ] As we have noted from the beginning, there will be some resource implications, people and possibly space, which will have to be identified and approved by the Executive Director-Comptroller before the proposal is coordinated in the Community. While offsetting savings may accrue to the Community in the long run, they won't help the DD/S or the Agency with its budget in the next couple of fiscal years.

When you get sorted out with [ ] the agreed draft should come back through DD/S for his final review before taking the next step in your process.
